

NEW

A REGIONAL ALLIANCE to

Strengthen the Heating and Cooling (HVAC) Sector in the Mid East Region (Kildare, Meath, Wicklow)

CALLING those who work in, educate, support and drive policy in HVAC

Shape the future of clean, efficient heating and cooling in our region, while gaining visibility, skills, and funding opportunities.

As a Regional Alliance member, you will:

- Guide our training partnerships that help you and the sector grow, upskill, and stay competitive
- Influence local climate and skills strategies
- Gain visibility through EU and regional communications
- Participate in regional funding strategy development

COMMITMENT – Your time is precious. Over the next few years, you are invited to 3-5 short meetings.

The Alliance has Benefits for All Members:

For Businesses & Industry Partners

Support training, grow partnerships, and access skilled local talent.

- Find industry-relevant training courses that your business needs
- Empower your workforce with targeted green and digital skills.
- Drive innovation through collaboration with educators and municipalities
- Strengthen your competitive edge in a growing green sector

For HVAC & Construction Professionals

Connect your expertise to training, skills, and retrofit solutions.

- Upskill with green and digital training that meets EU standards
- Stay ahead of evolving technologies and regulations
- Stay competitive as clean energy standards evolve

For Educators & Training Providers

Align your programmes with real industry and climate needs.

- Update your curriculum with EU-backed green skill standards
- Access teaching toolkits and flexible training materials
- Partner with industry to ensure job-market alignment
- Enhance your institution's profile in climate innovation

For Municipalities & Local Leaders

Deliver climate goals through joined-up regional collaboration.

- Attract investment and green talent to our region
- Meet climate goals while supporting economic development
- Collaborate on funding strategies for long-term impact
